

UMM - Tool

July 2019

The screenshot shows the 'Standardview' of the UMM tool. At the top left is the logo for 'Open Grid Europe The Gas Wheel'. A search bar at the top center contains the text 'Suche nach Themen, Downloads und mehr'. Below the search bar is a 'Filter' section with dropdown menus for 'Meldungsart', 'Urgency', 'Event Status', and 'Unavailability Type'. There is also a 'Kategorie' dropdown and a 'Zeitraum' field. A search input field contains 'Netzpunkt eingeben'. Below the filters, there are buttons for 'Active', a date range '29.03.2016-12.04.2016', and a 'Reset' button. At the bottom of the filter section, there are buttons for 'Meine Auswahl per', 'RSS', and 'E-Mail Abo'. A 'Date' dropdown is also visible. A green information icon (a square with an 'i') is highlighted with a red box. Below the filter section, the text '51 Ergebnisse' is displayed. The main content area shows a grid of eight event cards. Each card has a blue header with the title 'Overnomination' (except for the top-right one which is 'Capacity offer reduced / Suspension of ToC at storages'). Each card lists 'Validity' (start and end times), 'Network point/system' (e.g., 'Emden EPT Entry (1/L1000927)'), and 'last change' (date and time). A 'History' button is located at the bottom of each card.

- This is the view you have when opening the tool
- Extensive search – functions
- The „ green i“ shows which color belongs to which category
- There are 8 categories defined
