Press Release

28 September 2020

OGE publishes network tariffs for Trading Hub Europe

Uniform postage stamp tariffs determined for the new Trading Hub Europe (THE) market area for the period from 1 October 2021 to 1 January 2022

From 1 October 2021, there will be a uniform tariff for the new joint Trading Hub Europe (THE) market area, which has been determined in accordance with the tariff setting process known as REGENT 2021 established by the Federal Network Agency (BNetzA).

On 28 September 2020, Open Grid Europe (OGE) published its network tariffs applicable from 1 October 2021 in accordance with the terms of Agreement on Cooperation between Operators of Gas Supply Networks. The annual tariff for fixed, freely allocable entry and exit capacity will be €3,80 / (kWh/h) / a, effective from 1 October 2021.

The tariffs for booking firm, freely allocable entry and exit capacities in the new THE market area will be about one per cent higher than in the NCG market area, and approximately about 14% will be higher than in the GASPOOL market area.

About OGE

OGE is one of Europe's leading gas transmission system operators. With our pipeline network spanning approximately 12,000 kilometres, we transport gas throughout Germany. Our geographic location makes us the central link for gas flows across the European single market. 1,450 OGE employees ensure security of supply. We make our network available to all market participants in a transparent and non-discriminatory way in line with market needs. We enable energy supply. Today and in the energy mix of the future.
